## **Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application:

## **Listing of Claims:**

1. (currently amended)A method for applying an image onto an article, said article comprising a light transmissible surface and a light source disposed under said light transmissible surface, said method comprising steps of:

providing an image-transfer medium comprising a transparent substrate and a transferable material formed on a first surface of said substrate wherein said transferable material is formed with a plurality of said transferable dots, each of which has a shape selected from a group consisting of a circle, an ellipse, a triangle, a rectangle and a honeycomb;

removing a selected portion of said transferable material to obtain a hollowed transferable material with a specific pattern vacancy; and

adhering the remaining transferable material onto said light transmissible surface of said article, thereby allowing light emitted by said light source to penetrate through the specific pattern vacancy.

- 2. (original) The method according to claim 1 wherein said transferable material comprises a pressure-sensitive adhesive layer, and said step of removing said selected portion of said transferable material is performed by applying a depressing force onto a second surface of the substrate with a writing tool or stamping tool.
- 3. (original) The method according to claim 1 wherein said remaining transferable material is adhered to said article along with said transparent substrate.

Claims 4-11. (cancelled).
